Subject: Microsoft needs to be punished!

To whom it may concern,

Please don't settle with Microsoft. They need to be punished and what I

have read so far is that has not happened yet! There should be a huge fine and I'm not talking millions I'm talking BILLIONS!!! Put them down for the count not just for the round. What the DOJ has done is given them a pinch on the hand and told Microsoft to go ahead and do it all over again and we promise not to bother you anymore. What kind of punishment is this? Why don't they throw some of the executive team in prison. I thought that's what you do with criminals isn't it?

Please be more aggressive with this case than the DOJ and don't let them get away with what they have done and continue to do.

Sincerely, John Horvatic
